### Tools:

- Memory Wire Finishing Pliers
- Memory Wire Shears

*Instructions: [Follow along on the Beadalon Facebook Live Replay](#)*

### STEP 1

Cut 3 rings of memory wire and string on your leather. Curve the leather to make it easier to get it on the memory wire.

### STEP 2

Add an end cap to both ends of the leather. Twist the end cap to get it onto the leather.

### STEP 3

On one side add a 10mm pearl, an 8mm pearl, a 6mm pearl and 5 x 5mm pearls.

### STEP 4

Use the memory wire finishing pliers to make a simple loop going outward on the side you added the pearls to.

### STEP 5

Push everything towards the loop you just made.

### STEP 6

On the other side of the add a 10mm pearl, an 8mm pearl, a 6mm pearl and 5 x 5mm pearls.

### STEP 7

Trim the memory wire and leave a half inch to  $\frac{3}{4}$  inch of wire. Using the memory wire finishing pliers, make a simple loop going outward. Alternate making tightening you loops on either side until there is no excess wire showing.
