

## MAKE YOUR OWN JUMP RINGS WITH THE COILING GIZMO by Meredith Roddy

Making your own jump rings for jewelry couldn't be easier with the Artistic Wire Coiling Gizmo.

### SUPPLIES:

- Artistic Wire® Coiling Gizmo® Deluxe Econo Winder
- Nipper Tool
- Sparkle Chain Nose Pliers (2)
- Oval Chain
- Findings Variety Pack
- Artistic Wire®, Silver 20 Gauge
- Green Turquoise Size 6 Seed Beads
- Neptune's Dream Mix Size 6 Seed Beads

### INSTRUCTIONS

#### STEP 1

Use the largest mandrel on the Coiling Gizmo to turn a coil of 20 gauge Artistic Wire.

#### STEP 2

Cut the coil into rings. Make sure you use the flush side of the nipper tool to cut each ring so that the sides are flat when they join together.

#### STEP 3

Cut a 7 inch (18 cm) length of chain (or as large as will fit your wrist).

#### Step 4

Use a small jump ring from the Findings Variety Pack to attach a clasp on the first link of chain.

#### Step 5

Use two chain nose pliers to open a jump ring, pick up one size 6 seed bead, loop through the second link of chain, and close the jump ring. Repeat to add as many rings to your bracelet as you'd like.
